

About Us.

History

In 1982, E.C. Fennell, P.A. (ECF) was originally established by Everett C. Fennell, P.E. CEO/Managing Principal, to provide individuals with engineering consultant services. In 2011, with the help of a small support team, ECF was rebranded as ECF Engineering Consultants to provide engineering consulting services to the large scale energy market. ECF is headquartered in West Palm Beach, FL, with offices in Atlanta, GA and Plantation, FL. ECF has grown into a multi-faceted corporation with 150 employees comprised of experienced engineers and a professional staff specializing in providing technical solution

Purpose

At ECF, we are dedicated to being more than just an engineering firm; we aim to be your comprehensive partner for all engineering needs. Our commitment is to provide a full range of engineering capabilities, serving our clients at every stage of the engineering process. Our team of skilled engineers covers a wide spectrum of disciplines, allowing us to handle diverse projects under one roof. We take pride in being your partner from conception to completion, providing a smooth and streamlined experience.
